## Digital Delivery Referral Guidelines – Self/Family

### About Brave Foundation and SEPT Program

In the Support Expecting and Parenting Teens (SEPT) digital delivery program, Expecting and Parenting Teens are connected to a virtual mentor who assists the young parent by developing a pathway plan toward their goals. The core component of the program is a focus on the participant exploring education and pathways to employment and reducing barriers to these pathways. The Virtual Mentor provides general support and guidance, help navigating services and systems including practical support such as completing departmental paperwork and connecting the young parents with relevant services and support suited to the E&PT's personalised needs and goals.

Virtual mentoring refers to a process of mentoring where a professional mentor engages with participants through means of virtual communication such as internet-based tools such as e-mails, chats, social media networks, virtual platforms (i.e., Zoom, Teams), and telephone. The purpose of the Virtual Mentor role is to provide support to rural/remote/isolated participants via virtual delivery. A Virtual Brave mentor will hold one on one meetings with the E&PT's throughout the Brave Pathway Plan. The voluntary program is offered short term till July 2021.

The Brave Foundation is an Australian not-for-profit charity that aims to equip expecting and parenting teens with resources, referral, and education opportunities to facilitate happy, healthy, and skilled families over time.

Once a referral is received it is reviewed by the Brave team or mentor within 48 hours and the pathway is determined. Our aim is to offer a space in the SEPT Program to young parents, however at times our mentors are at capacity and referrals will be placed on a waitlist until a place becomes available. We aim to offer some feedback to the referrer or connect the young parent to support services in their regions if we are unable to assist them.
